

LET OUR PRE-WASHER

SHOW YOU THE MONEY

PrepBrite

Give your hand wash customers and employees a boost with the PrepBrite Pre-Washer. This handy and budget-friendly car wash option saves time and money by cutting your time in half and labor by one-third. Available in Texas size for those crew cab dually pickup trucks and regular size, this wash applies a rinse and foam to get the washing process started.

Whether your car wash lets customers do their own hand washing or you employ staff to wash and detail, the PrepBrite system moves cars through the bays at more than twice the speed of traditional hand wash bays. Give your hand wash customers and employees options for quicker solutions.
