

TriBrite

INCREASE YOUR PROFIT WITH THE THREE-WAY IN-BAY AUTOMATIC

The TriBrite Car Wash gives your customers the flexibility they want without compromising quality. We call this machine our 3 In 1, because customers can select a friction car wash, a high-pressure touch-free car wash or both friction and high pressure at the same time! It's three different washes in one perfect machine.

Give your customers options with the TriBrite In-Bay Automatic Car Wash. For those markets with large SUVs and pick-ups, ask about the Texas TriBrite, because everything is bigger in Texas.

TriBrite
